

## DELTA REGION SCCA

# Novice Autocross School

FEBRUARY 28, 2009 • METAIRIE, LA

Delta will be holding it's 2009 Beginner/Intermediate School on Saturday, February 28, 2009 at Zephyrs stadium. Students will receive intense instruction on the major elements seen on most autox courses.

Location: Zephyrs Stadium, Metarie, LA  
Date: Saturday, Feb 28th, 2009.

Pre-Registration: recommended at <http://www.dlbracing.com>  
Concession will be open all day. Hamburgers, Hot dogs, chips, water and soft drinks are available.

#### Autocross Schedule:

- Registration/Tech 7:00-9:00 AM
- Course Instruction 10:00-11:00 AM
- Element Instruction: 11:00-2:00 PM
- Final Course runs: 2:00-4:00 PM

Autocross School Admission is \$50.00 per student. NOTE:  
Non-SCCA members who participate in the school will receive a free weekend membership with their course fee. This will cover their membership for the autocross on Sunday also, saving you \$10.00 on the Sunday event. Class registration will be restricted to keep the student to instructor ratios low  
- Spectators: free

Sun, April 5: Delta Solo Event #4, Zephyrs Stadium

Sat, April 17/18/19: Grand Bayou Practice, NPR

**What is Autocross?** Autocross is a form of motorsports that emphasizes safe, low-cost competition and active participation. An autocross is a timed competition where drivers navigate one at a time through a temporary course marked by traffic cones, rather than racing on a track with multiple other cars, as in road racing or oval racing. Autocross tends to place more emphasis on car handling and driver skill than on sheer horsepower, and events typically have many classes which allow almost any vehicle, from economy sedans to purpose-built vehicles, to compete. Speeds are slower in absolute terms when compared to other forms of motorsports, usually not exceeding highway speeds, but the activity level is high due to a large number of elements packed into each course. Autocross courses are typically 40 to 70 seconds in length. Autocrossing is a good way to learn skills that transfer to road racing, as drivers learn vehicle control in a safe, controlled, and competitive environment.
